Conversations On Sustainable Development In Africa

DURBAN, South Africa | 07- 09 December 2021

The idea that human societies must live and meet their needs without compromising the ability of future generations to meet their own needs has necessitated Sustainable Development (SD) discussions across the world. In Africa, there is a need for an integrated approach in addressing the situation. The conference will bring together several participants to deliberate key issues related to SD by putting Africa in the centre of the discussion.

Sub-themes:

- Sustainable Development in the era of COVID-19.
- Higher Education Priorities for Sustainable Development in Africa.
- Bioeconomy and Sustainable Development in Southern Africa (Water, Food and Energy Nexus).
- The Centrality of African Research to Sustainable Development.
- Sustainable Urbanization In Africa (Economic, Social and Environmental Aspect vs Innovation, Indigenous Knowledge System and Disease management).
- Locating Sustainable Development in Teaching and Learning activities.
- The impact of Higher Education in Sustainable Development (Society, Industry and Government)- Theory behind "Green Ecosystem".
- The role of Artificial Intelligence and Information Systems in Achieving Sustainable Development Goals (SDGs).

Conference open to:

Academics
Researchers
Professionals and practitioners
Stakeholders

Students are all invited to participate in this conference.

**Submission opens
12 April 2021**
